

Not Sisters

Now and again you see two women passing down the street who look like sisters. You are astonished to learn that they are mother and daughter, and you realize that a woman at forty or forty-five ought to be at her finest and fairest. Why isn't it so?

The general health of woman is so intimately associated with the local health of the essentially feminine organs that there can be no red cheeks and round form where there is female weakness.

Women who have suffered from this trouble have found prompt relief and cure in the use of Dr. Pierce's Favorite Prescription. It gives vigor and vitality to the organs of womanhood. It clears the complexion, brightens the eyes and reddens the cheeks.

No alcohol, or habit-forming drugs is contained in "Favorite Prescription."

Any sick woman may consult Dr. Pierce by letter, free. Every letter is held as sacredly confidential, and answered in a plain envelope. Address: World's Dispensary Medical Association, Dr. R.V. Pierce, Pres., Buffalo, N.Y.

LIVINGSTON

R. E. Snyder, Superintendent of the K. D. Division of the L. & N. and some of his associates, are here with a special car. There is something in the wind.—Well Mr. Trustees we have waited for an answer about the streets and that bad road, and all we can hear is "we will fix them before long." But we are getting restless and impatient and can't see why it can't be done now. All the roads are being worked throughout the county and here we are sitting still on the stool of do nothing. Let's look to the interest of the town and fix them up. A majority of the trustees are merchants and it is to their interest to work them. We need more concrete sidewalks put down, and the town needs several improvements.

The protracted meeting is still going on and there has been up to the present time four additions.—George Pope has returned from Paris.—Jim Smith, of Corbin, is with us this week.—Henry Brown and family are visiting relatives at the Cross Roads.—Marshal Burton received a message from Mt. Vernon to arrest Benny Kinley of Tennessee. Burton went and arrested him and took him to Mt. Vernon. He is charged with deserting his family and bigamy.—H. D. and Mrs. Magee left for Louisville this week.—In a few more days the wedding bells will peel forth their lovely notes and then two hearts will be made happy.—Nathan McWhorter has moved into the Mullins Hotel and Mrs. Sue Mullins has moved up stairs.—W. H. Burton was taken seriously ill Tuesday night and Mrs. Childress and Webb were called and this morning (Wednesday) is resting better.—S. E. Pennington is having his lot on Main St. leveled and will erect a business house soon.—Some time ago it was thought that corn crops in this section would be fine, but farmers don't count on more than one one half crop now.

There are several boys and girls of this place, who will leave in a few days to attend college. Some will go to London, some to Berea. Why is this, when we have a good school at Mt. Vernon. I believe in protecting home institutions. I know of several teachers in the county who never went higher than the Level Green Academy and held first class certificates. But that noted instructor, J. N. Brown, (Buck Varnon) had but few equals and no superiors. Well do we remember our by-gone days at old Level Green, the old blue back speller and Harvey's grammar, that have long been dropped and others taken in their stead which do not compare with them.—Ed Woodall was in Laurel county last week mixed up in the primary. Ed, remember the fate of poor old Trav.—On last Saturday night Marshal Burton went to a certain place not far from Livingston and made a search and found about 200 pounds of brass. He had it loaded on a hand car and brought to Livingston. This is railroad brass and it is a heavy penalty to sell it. For some time there have been junk dealers buying up brass here and all the brass in the county has been bought or stolen. The electric machinery belonging to the New Livingston Coal Co., has been robbed of all the brass and trolley wire has been taken. They have even gone so far as to take the whistle off the Livingston Lumber Co's. boiler, and in the last few nights there have been attempts to enter houses. So you see our marshal has his hands full. But one thing we can say for him is that he is equal to the occasion and sooner or later they will meet their fate which we will be glad to see. Luck to you Burton, we are with you.—H. L. Delph will move back to town to-day.—Rev. J. W. Jamison, our teacher is getting along nicely.—W. B. Whitehead was up in Jackson county several days this week looking after timber.—We have a good joke of J. A. Oliver, but we have promised to be quiet, and Joe says he will be good.—W. D. Griffin, of Jellico, was with us Sunday.—Dispatcher Westerfield, who has been in poor health for some time,

is able to go to work again.—Road working is the order of the day in this section, but it is none too soon. A. Pennington has returned from Jackson county and reports a good time. But he says things have changed from what they used to be and lots of his old friends are either dead or have moved away.—James Pointer is visiting friends at Dalas, Pulaski county, this week.—Charley Henson left this morning for Clay county in the interest of the Livingston Lumber Co.—Miss Mamie Henson is very low with typhoid fever.

P. H. SHUTTS ON PIKES.

Bromo, Ky., Aug. 16th., '09.
Editor Mt. Vernon Signal,
Mt. Vernon Ky.

Dear Sir:

As I have been reading some good articles in your paper on "Good Roads" recently I concluded to contribute some few lines occasionally on that very important subject.

Men like Franklin said and wrote things hundreds of years ago that still have as much influence on the minds of men now as when first said. So, might I say something that could possibly live till we will have some pikes in old Rockcastle. But whether I do or not I have some pleasure in writing and if it doesn't reach the waste basket will have some pleasure in seeing it in print. But it would give me great pleasure if this will only convert one that will enlist with us and help fight the battles for the cause of Good Roads. In a conversation with my old friend J. I. White, he predicted that Rockcastle would not have any pikes before my great grandchildren would live to be as old as Methuselah. If that be the case none of my writing will live so long but still there is some pleasure in fighting for a good cause. I meet good road advocates almost every day that say many good things for the cause. But how much do we want pikes?

I remember of reading when quite a small boy in a school text book of a poor man and his family moving from one of the Eastern states westward and the moving was done in a wagon drawn by one horse almost the only property owned by the poor family. While crossing a bridge, in New York the horse broke through the rotten timbers and was killed. The poor people could not pursue their journey or return to their old home. In the mean time a great crowd gathered about all claiming to pity the poor family, but that did not give any relief, but presently one man holding up a ten dollar bill said, "I pity them to that extent" and asked the crowd to what extent they pitied the sorrow-stricken family. In a short time there was enough made up to buy another horse for the travelers and they went on their journey.

So money will do more in some cases than talk. Now, how much do you want a pike? The fiscal court possibly would appropriate some every year, if the people along a proposed line of road would lend a helping hand. Now, to start such a list I will subscribe \$500 in money and \$500 in labor to build a turnpike from Mt. Vernon to my home at which Bromo post-office is located, a distance of about six miles from town and on a direct route from Mt. Vernon to the Pulaski county line by the way of Level Green, one of the best routes on which such a road could be built in the county, and one which would benefit more people.

I could speak for some of my neighbors who have offered to contribute very liberally to the cause, but will let them speak for themselves. If everybody in Mt. Vernon and along said line will only put their shoulder to the wheel we may get some pikes a few years sooner than Bro. White prophesied.

If this seems to have any influence I will write up my survey in full and show the number of people that would be benefited directly and to what extent as far as I am able. If we can get enough enlisted we will fight it out on this line if it takes all summer.

THE NEW SCHOOL LAW.

No more important question arises for solution at the present time than that of the outcome of the new school law. What is going to be its effect on attendance at school? How much will the better preparation of teachers be promoted? To what extent will it be administered for "graft"? In other words will the large sum of money apportioned each year per capita, and the county fund arising from local taxation be diverted from the purpose for which it is intended, to replenish the purses of needy relatives or the peripatetic jobber in school house building and repairs. Will contracts for building, and repairs be awarded to responsible lowest and best bidders, or will it be given to some one not responsible and who as has been done under the old law, erect buildings wholly inadequate for a school house and without any regard for quantity or kind of specifications for quantity or kind of material used in construction? It is much easier to ask than to answer these questions. We have been playing school so long, with such meager results, that the education of our children becomes a serious question.

The per cent of illiteracy of Kentucky as compared with other states, is so marked that it has become a reproach and a byword. It is hardly conceivable that any moderately educated, and in-

telligent community could be the scene of so much lawlessness and violence as has been common in many sections of our state for the last decade.

Shocking and murderous as has been the condition, among the "feudists" of some of the southern and eastern counties, it has been comparatively harmless as compared with the state of terror and intimidation to say nothing of arson, and murder committed, in the large areas devoted chiefly to tobacco culture. Literacy; the power to read and write, and perform the function of business life is not solely the end of education, and no individual or community, can be said to be educated, till they have learned what are the rights, and privileges and duties of citizenship and been taught to observe and respect them.

It cannot be presumed that "night riders", and mobs are composed wholly of illiterate persons nor is it true that the sole cause of crime is the result of illiteracy, but be that as it may, the communities that foster and perpetuate such wide spread, disregard for law, and its proper enforcement, utterly fail to come up to the standard of enlightened christian civilization.

Where churches and schools are not regarded as the chief means, for the best ends of civil government, conclusive alike to the safety and welfare of person and property it may be said that there, the standard of citizenship is low, and requires only a slight disturbance to foment, a mob, "night riders" or a "Ku Klux Klan".

Were it not for the militia of Ky. Kentucky's Standing Army if you please backed by U. S. Courts, and Soldiers of U. S. Army, some sections of Ky., would to day be in a state of anarchy.

In view of this indictment, if the evidence justifies it, what should be the attitude, of the 119 counties, of Kentucky toward the increased facilities, for more pay for better teaching for longer terms. It has become practical under the New School Law, to add these facilities to our system.

Kentucky has created a general fund arising from its School Bonds and direct taxation that provides the magnificent sum of \$4 per capita, for the education of every child, white and black, in the

State between the age of six and twenty years of age.

Each of the 119 counties have become school districts with the entire county the unit of taxation with absolute authority and power to create a county fund adequate to providing suitable buildings and equipment for the maintenance of its schools. In view of the facts enumerated it becomes pertinent, to ask the questions at the beginning of this article. It is up to the County Superintendents, and the trustees of the subdivisions, to say how shall these funds be disbursed—for the benefit of the children, or the private interests of beneficiaries only incidental and foreign to the purpose, of the State? Which? It is up to the County Attorneys, Circuit Judges and Commonwealths Attorneys, and the Fiscal Courts, and every law abiding patriotic citizen to see to it that these funds be used for the education of all the children of the commonwealth and for no other purpose.

EDITOR SIGNAL:

The dilapidated appearance of the Mt. Vernon "grave yard" has been the theme of many an animated discussion within the last twenty five years and the needed repairs seem no nearer now than they did twenty five years ago. If something definite and permanent in character is not done soon our opportunity may pass forever. Judging by the past, twenty five years more may see the old families scattered to the four winds of the earth, and that sacred old spot condemned and buildings erected there on. The only way to avoid such a fate is to go to work and make it an object of beauty and utility.

Engineers tell us that should be done by first building a first class Macadamized road or boulevard along side of it as a foundation. Then retaining wall can be built at a very small cost and that by the families interested in the border lots. The road recommended by engineers should be 20 feet wide and 200 yards long with not less than 14 inches of metal. Fifty dollars will pay for the specifications and grading, and \$400.00 will pay for the metal at 80 cents per cubic yard. It may be however that it can be built for 60 cents per cubic yard and that would take off another hundred dollars. Can't our good women call a meeting, organize a civic improvement club, appoint their soliciting committee and push the work along.

Your correspondent don't want to head the list, but he will donate all the rock needed at a convenient point, and pay \$5 cash on completion of the work; on conditions that a competent engineer be employed to make the survey and submit specifications. A. G. L.

That Lame Back Means Kidney Disease

And to Relieve the Lame and Aching Back, You Must First Relieve the Kidneys

There is no question about that at all—for the lame and aching back is caused by a diseased condition of the kidneys and bladder. It is only common sense, any way—that you must cure a condition by removing the cause of the condition. And lame and aching back are not by any means the only symptoms of derangement of the kidneys and bladder. There are a multitude of well-known and unmistakable indications of a more or less dangerous condition. Some of these are, for instance: Extreme and unnatural lassitude and weariness, nervous irritability, heart irregularity, "nerves on edge," sleeplessness and inability to secure rest, scalding sensation and sediment in the urine, inflammation of the bladder and passages, etc.

DeWitt's Kidney and Bladder Pills are an exceptionally meritorious remedy for any and all affections or diseased conditions of these organs. These Pills operate directly and promptly—and their beneficial results are at once felt. They regulate, purify, and effectively heal and restore the kidneys, bladder and liver, to perfect and healthy condition—even in some of the most advanced cases.

E. C. DeWitt & Co., Chicago, Ill., want every man and woman who have the least suspicion that they are afflicted with kidney and bladder diseases to at once write them, and a trial box of these Pills will be sent free by return mail postpaid.
